# PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

## SUMMARY

Slobodka Ammunition Depot Kolbasna is located 1 kilometer (km) south of Kolbasna (Figure 1).

The depot is comprised of a secured ammunition storage area and an adjacent support facility. The entire installation covers approximately 400 acres and contains an administration building, 2 barracks, 9 possible quarters, 25 support buildings, 5 probable transloading buildings, a vehicle storage/maintenance building, a vehicle/equipment park, 25 revetted ammunition storage buildings, 2 bunkered storage

buildings, a probably abandoned revetted storage building, 13 other storage buildings, a probable water tower, and 2 open storage areas (Figures 2 and 3).

The depot is covered on good photography from [ ] missions between [ ] [ ] The only significant change observed was the addition of 2 bunkered storage buildings between [ ] [ ] The installation appears occupied on all photography.

## DESCRIPTION OF INSTALLATION

### Road Service

A rail line is adjacent to the installation and a spur enters the secured ammunition storage area. Five probable transloading buildings are adjacent to the rail line (see Area H1).

### Road Service

Secondary roads provide access to Kolbasna.

### Administration and Troop Housing Area

Area D contains an administration building, 2 barracks, and 12 support buildings.

### Ammunition Storage Area

Area F contains 25 revetted ammunition storage buildings, 9 support buildings, 2 bunkered storage buildings, a revetted storage

building, and 13 other storage buildings. This area also contains a probable water tower and an open storage area along the eastern boundary. The 2 bunkered buildings and possible foundations for 2 more buildings, which are located along the western boundary, were added between [ ] The revetted storage building is probably abandoned.

### Other Buildings and Facilities

Area H1 contains 5 probable transloading buildings.

Area H2 contains 9 possible quarters and 4 support buildings.

### Equipment Storage/Maintenance Area

Area J contains a vehicle storage/maintenance building (170 by 50 feet) and a vehicle/equipment park (800 by 500 feet). This area was occupied on photography of [ ]
